

## Access Door & Assembly

Elcometer's abrasive blast machines make inspection and servicing easy, thanks to the large access doorway which is wide enough for both of your arms.

Each door comes with an **ElcoFit™** wrap-around sealing gasket so you don't have to worry about gasket alignment when closing up.

- Quickly replace the yoke and nut if threaded, as the parts can be easily sourced.
- Large doorway access fits both arms - ideal for servicing.
- **ElcoFit™** wrap-around sealing gasket makes door alignment easy and fast.
